

DEAR Dana,

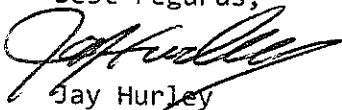

I just wanted to let you know how happy I am with the BioTE. As you know, in May of 2016 I got the BioTE pellets after hearing some of my friends talk about them. I asked my Doctor about it and explained that I was having some issues the older I got, and nearing 50 yrs old I felt like my father. I felt tired and out of energy early in the day. I was loosing muscle no mater how hard I worked out and gaining weight. I had muscle and joint pain a lot more. I found myself becoming moody and anxious and my blood bressure issues were getting worse.

She explained to me that men start loosing thier testosterone the older we get and as a resualt, our hormones get out of balance and host of issues arise. I had my blood work done and found that my testosterone was 285 instead of the 1100-1200 that it was when I was 20 yrs old and my free testosterone was only 6!

I am happy to report that BioTE has changed my life. After my first injection, my testosterone was 1200 and my free testosterone was 280! I am now sleeping all night and have the energy of two men. I no longer have to take my cholesterol pills and have cut my blood pressure dose in half. I have lost 16 pounds and I am getting unbelievable resualts in the gym without the joint and muscle pain. My wife is happy because I'm not the moody guy I had been for awhile and well, I have to admit, a great bonus is that my sex drive and performance is like I'm 18 again!

I would highly recommend BioTE to anyone who has low testosterno and I will send everyone I know to you and your Staff!

Best regards,

Jay Hurley
